

**Cash Plans and Dental Plans are one of the fastest-growing employee benefits in the UK. They provide a cost-effective way to help employees with the cost of day to day health expenses, like optical costs and prescription charges.**

Cash Plans can be combined with a medical expenses cover plan to provide an overall solution, and can also cover the liability that employers have under the display screen regulations, as well as being a 'frequent claim' policy which employees value highly.

Dental Plans for groups provide important preventative care, such as bi-annual check-ups and hygienist treatments. Plans can also cover restorative work such as fillings and crowns.

However, there are hundreds of Cash Plans and Dental Plans on the market, with different levels of benefits. It's a confusing choice and finding the right solution is difficult without independent advice from the Advo Group. We deal with all the top providers and are best placed to find the right plan to suit your company needs.

#### Cover options:

- *cash plans offering optical, dental and alternative treatments.*
- *dental insurance plans – from a minimum of 3 employees.*
