The Excel System

A simple, economical and attractive solution to the relocatable division of working environments.

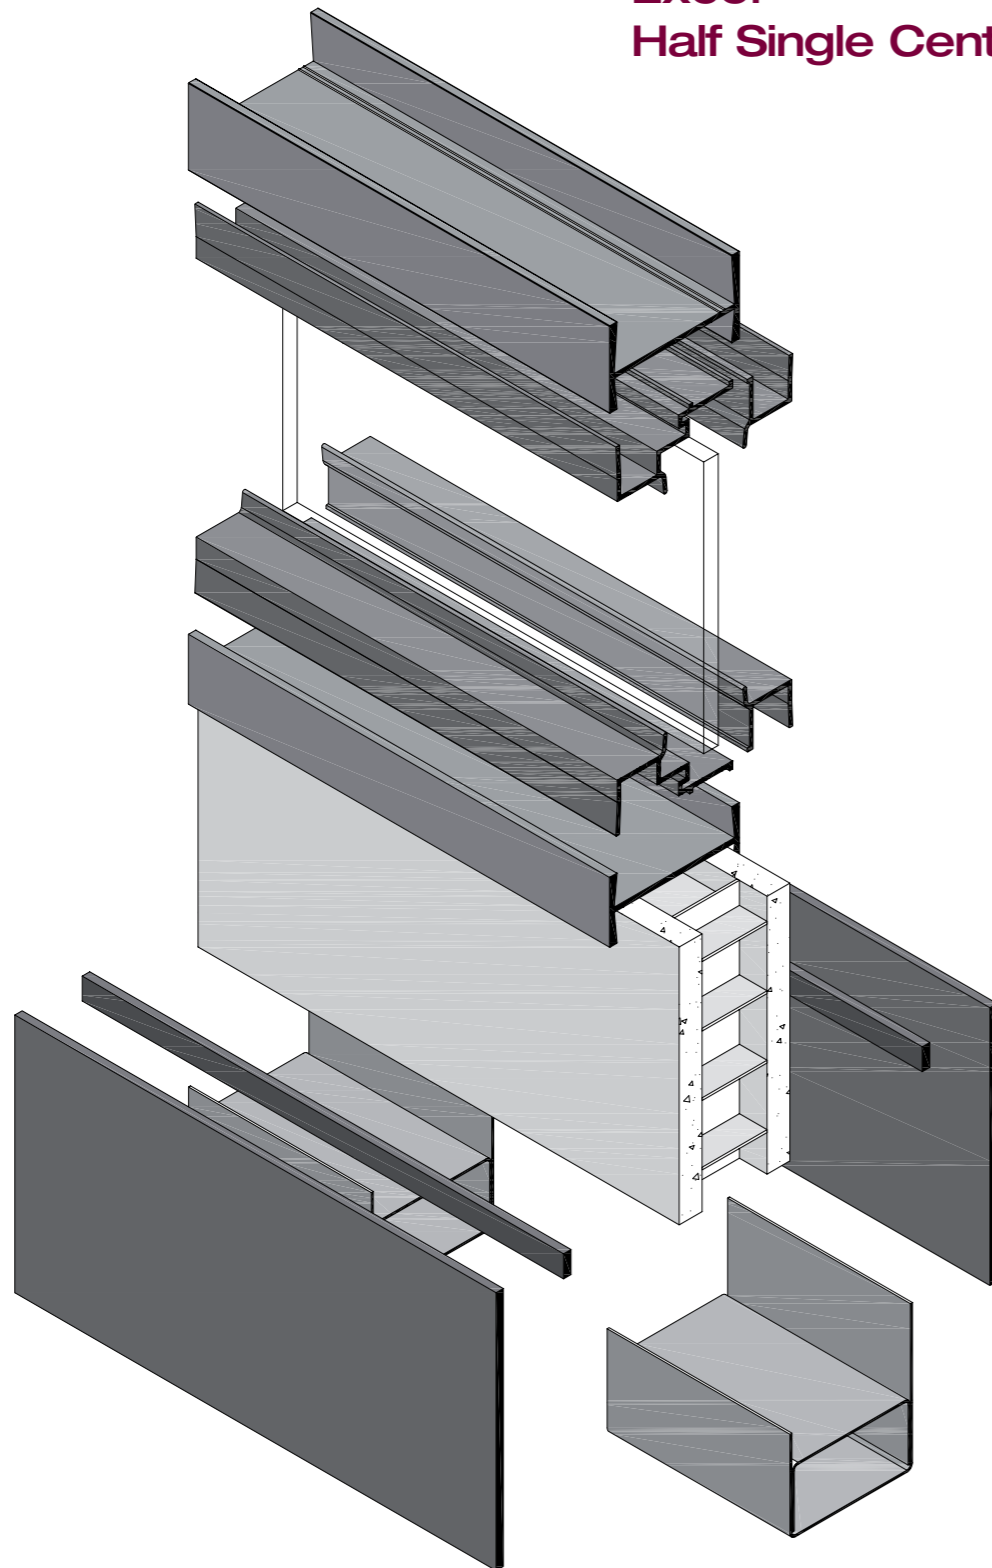

Excel Partitioning provides an economical and attractive solution to the division of working environments, where performance requirements are not the main criteria. It is relocatable to accommodate the constantly changing needs of the modern business.

Available in any combination of solid, fully glazed or part glazed elevations and generally based on a 1200mm module, the system provides an extensive range of options.

Features and Benefits

- Attractive, economical partitioning
- Single or double glazed options
- Unlimited glass manifestation options
- Integral blinds for privacy
- Range of colours and finishes
- Quick and simple installation
- Fully relocatable
- Fast-track grey and white held in stock

Excel Half Single Centre Glazed
