CCF

Toledo

Toledo is a high-quality double skin system designed with a cleanroom environment in mind, although its versatility allows it to be used in multiple applications.

- Two-line junction and flush glazing keeps dust traps to a minimum
- Can be multi-tiered and profiled for warehouse and office divisions
- Anti static/electro dissipative and antimicrobial powder coatings available
- Variety of door locking options and floor details available
- RAL 9016 (white) as standard; other colours available on request

Available Panel Heights:
2440, 2745 and 3050mm

Available Panel Widths:
300* 500 and 1000mm

Available Glazing Apertures:
1000w x 940h mm (standard) and 500w x 1600h mm

*Service panel also available for this width

Excalibur

Excalibur is a cost-effective modular double skin system suitable for office or factory partitions, offering an attractive appearance for the working environment

- Option of fire-rating and noise reduction capabilities
- Full range of proprietary suspended ceilings and tiles
- Single or double glazing available
- Multi-tiered facility using heavy duty top capping

Available Panel Heights:
2440, 2745, 3050 and 3660mm

Available Panel Widths:
300, 400, 500, 600, 700, 800, 900 and 1000mm

Finish*:
Sandstone BS.08.B.17, grey BS.0.A.05,
grey RAL 7037, white RAL 9010

*Other colours available on request

Sabre and Broadsword

Sabre

A modular, demountable single skin system ideal for warehouse and factory applications.

- Ideal for enclosing paint lines and coating furnaces, or for perimeter guarding to automated machinery
- Multi-tiered facility

Broadsword

A heavy-duty single skin system ideal for creating a secure perimeter for warehouse and storage applications.

- 40 x 40 x 2.5mm steel angle framework
- Expanded metal option for added security

Available Panel Heights:
2440, 2745, 3000 (Broadsword only),
3050 (Sabre only) and 3660mm

Available Panel Widths:
300, 400, 500, 600, 700, 800, 900,
1000 and 1200mm (Broadsword only)
NB All panels are available in varying combinations
of steel, glass and mesh.

Finish*:
Sandstone BS.08.B.17, grey BS.0.A.05,
grey RAL 7037, white RAL 9010

*Other colours available on request.

Caelum and Musca

Caelum

An industrial mesh partitioning system ideal for sub-dividing secure storage areas. Suitable for storing high value goods and/or hazardous materials.
